**REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

As to independent claim 1, "product release logic in the order management system that accumulates the individually identified products in the pre-packaging facilities and release the individually identified products for transport from the pre-packaging facilities to the packaging facilities only after determining that substantially all of the individually identified products for the customer order have been completed", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

As to independent claim 14, "releasing the multiple products for transport from the pre-packaging facilities to the packaging facilities only after determining that substantially all of the multiple products for the customer order have been completed", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

As to independent claim 21, "automatically releasing the set of products for transport from the testing facilities to the packaging facilities only after determining that substantially all of the products for the customer order have been completed, such that the program product causes one or more of the products in the set to accumulate in the testing facility after the one or more products in the set have tested good", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

2. Prior art cited

Pape et al. teaches determining if the order is filled at the packaging station rather than pre-packaging station or test station. The independent claims of the present application teach that the order is filled at the pre-packaging area(claims 1 and 14) and test area(claim 21) before

they are sent to the packaging area. Saka et al. does not teach the limitation of filling the order before being sent to the packaging area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
